A member of the public raised that electric charging points on Oulton Street lay-by have been installed without prior knowledge.

These have been installed as part of a government scheme and there is no planning or consultation required for these installations., hence why the Parish were not privy to the information beforehand.

Cllr Keith Robinson also stated that the parking restriction signs have been put up again in the Oulton street lay-by, this is not enforceable, only on the electric charging bays, which are restricted to 4 hours only.

Clerk to arrange a meeting with Richard Fox at East Suffolk Council and Cllr P Waring.

The Parish is a nominating body, that can nominate a piece of land or property, that we deem to be an asset of community value. It can be registered with East Suffolk Council and will appear on there for 5 years. If the owner of the property/land decides to sell, they have to notify the Parish & District Council. We then have a period of up to a year in which we can have some input and potentially put in a offer to buy. Owner doesn't have to accept an offer, but the Parish will be alerted to something happening, which we can then register an interest or an objection. Add this to planning role and monitoring checklist, so the Parish can check areas under threat so we can register interest and be prepared. Cllr P Waring happy to undertake this role.

Tree warden role – Tree Preservation Orders in the parish. In our Neighbourhood Plan, we have a log of trees and hedges protected in the area. Perhaps we could have a register to add “special” trees/Hedges of interest within the Parish, if they meet certain criteria, along the same lines as our Planning Assessment Form. To discuss this with Richard Fox.

Planning Committee may need forming, to monitor the scale of applications/TPO's coming through the Parish.
